

Een kastenloc versie op basis van het Casper 2 onderstel / ketel

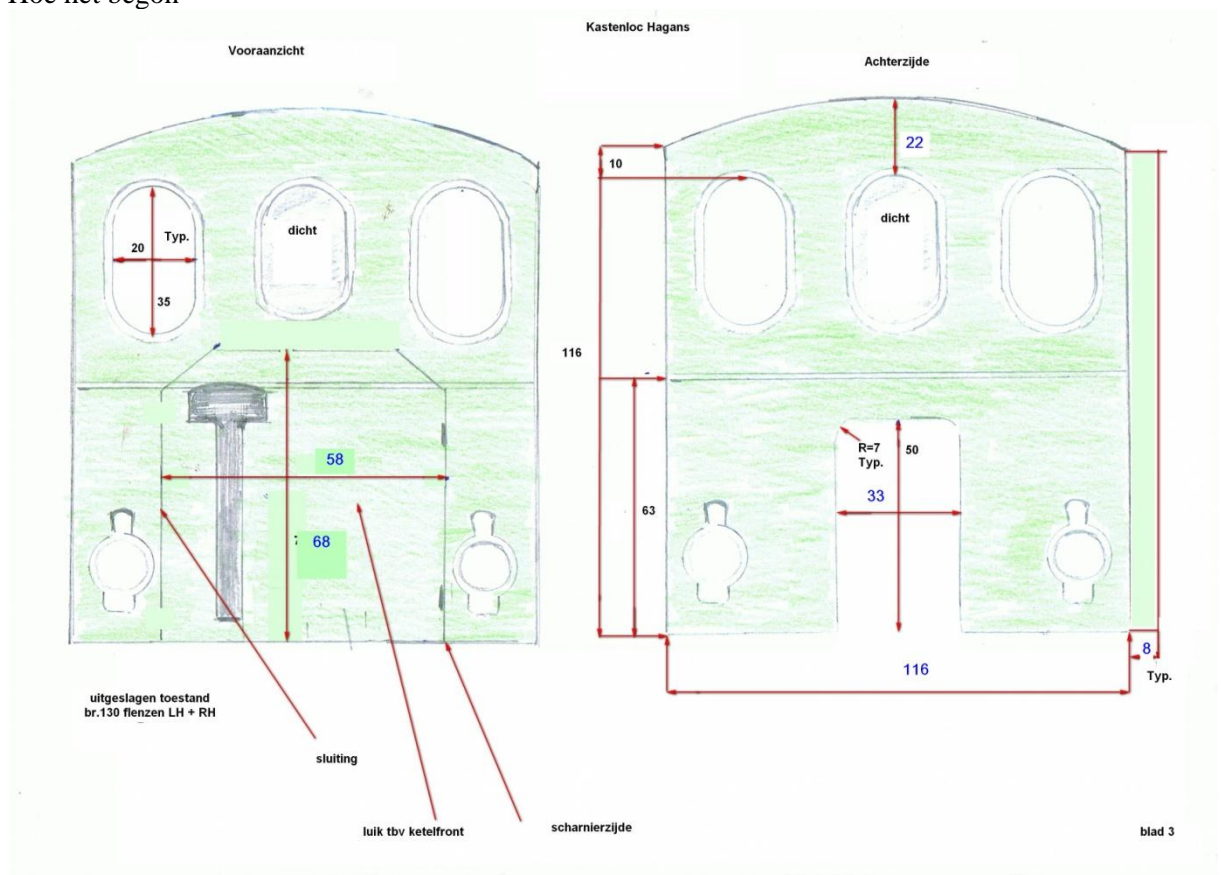

Het idee

Hoe het begon

Een papierversie

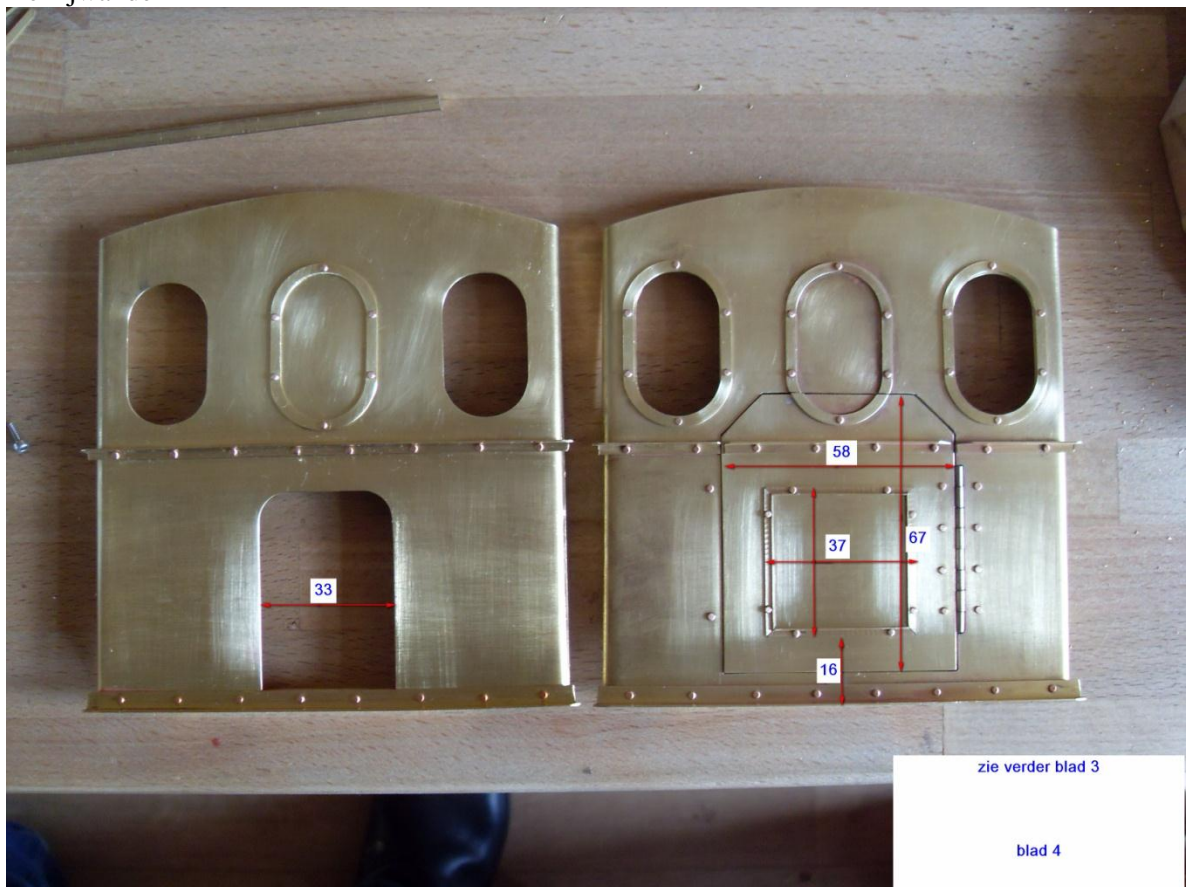

Eerst maar eens knippen en plakken

De zijwanden

Voor en achterkant

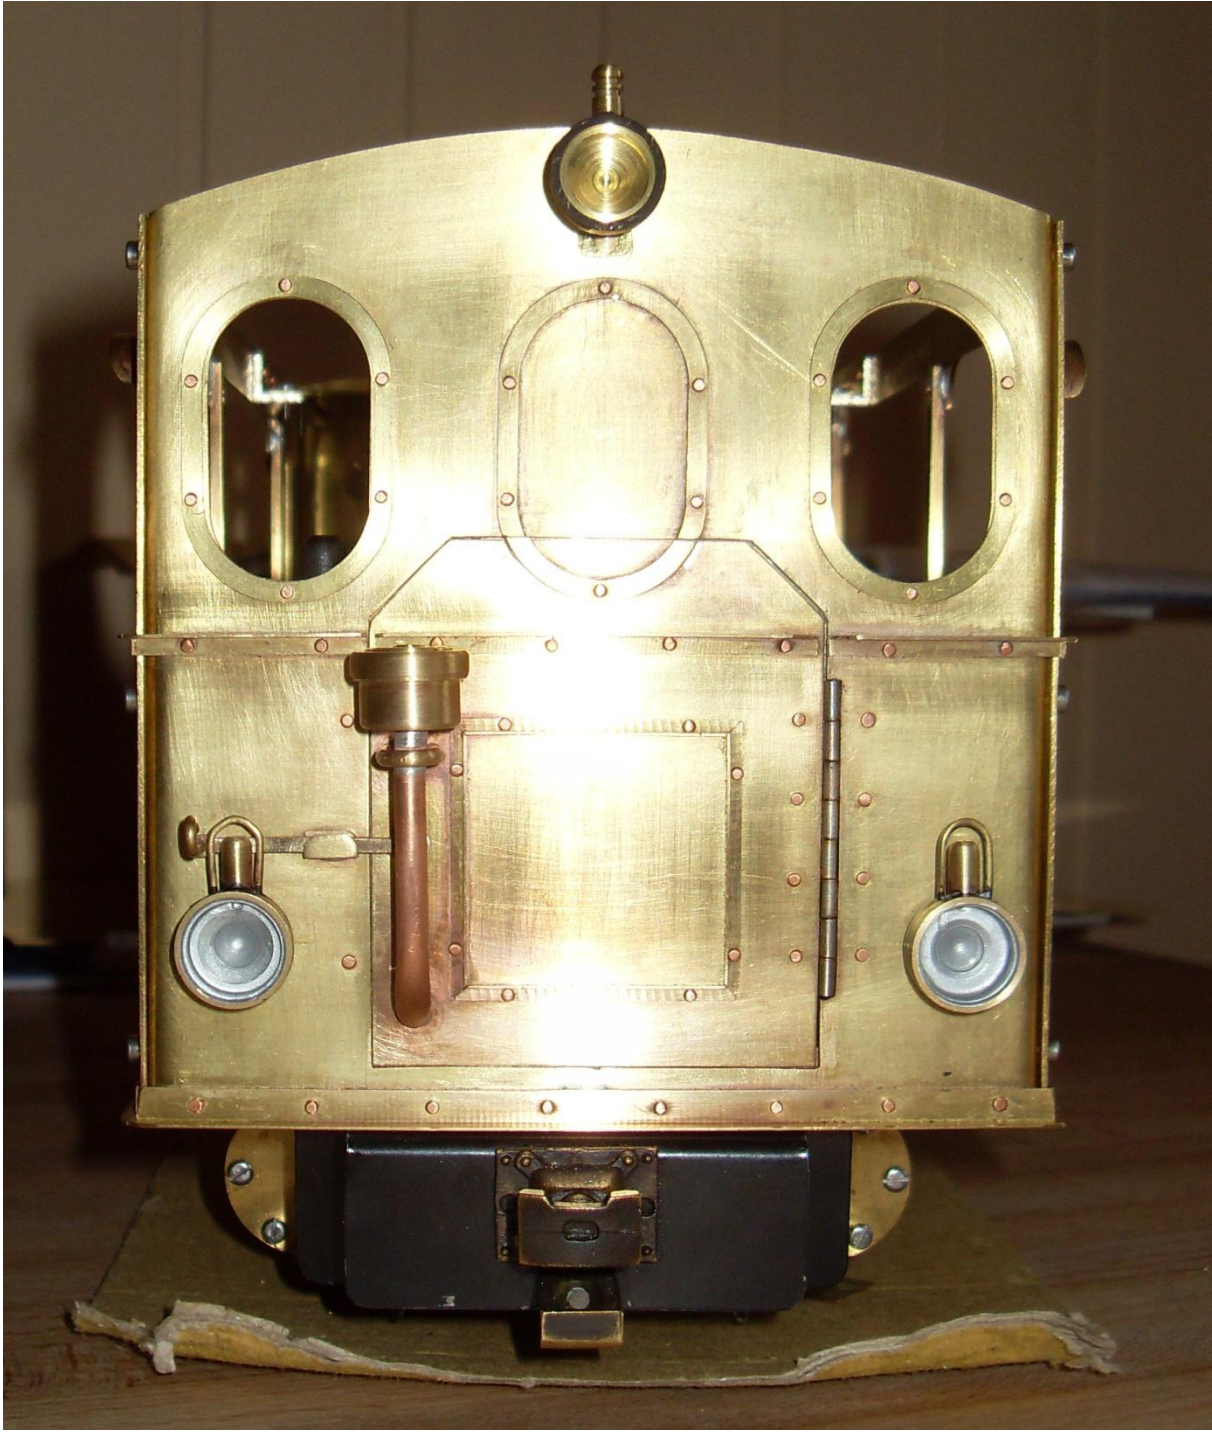

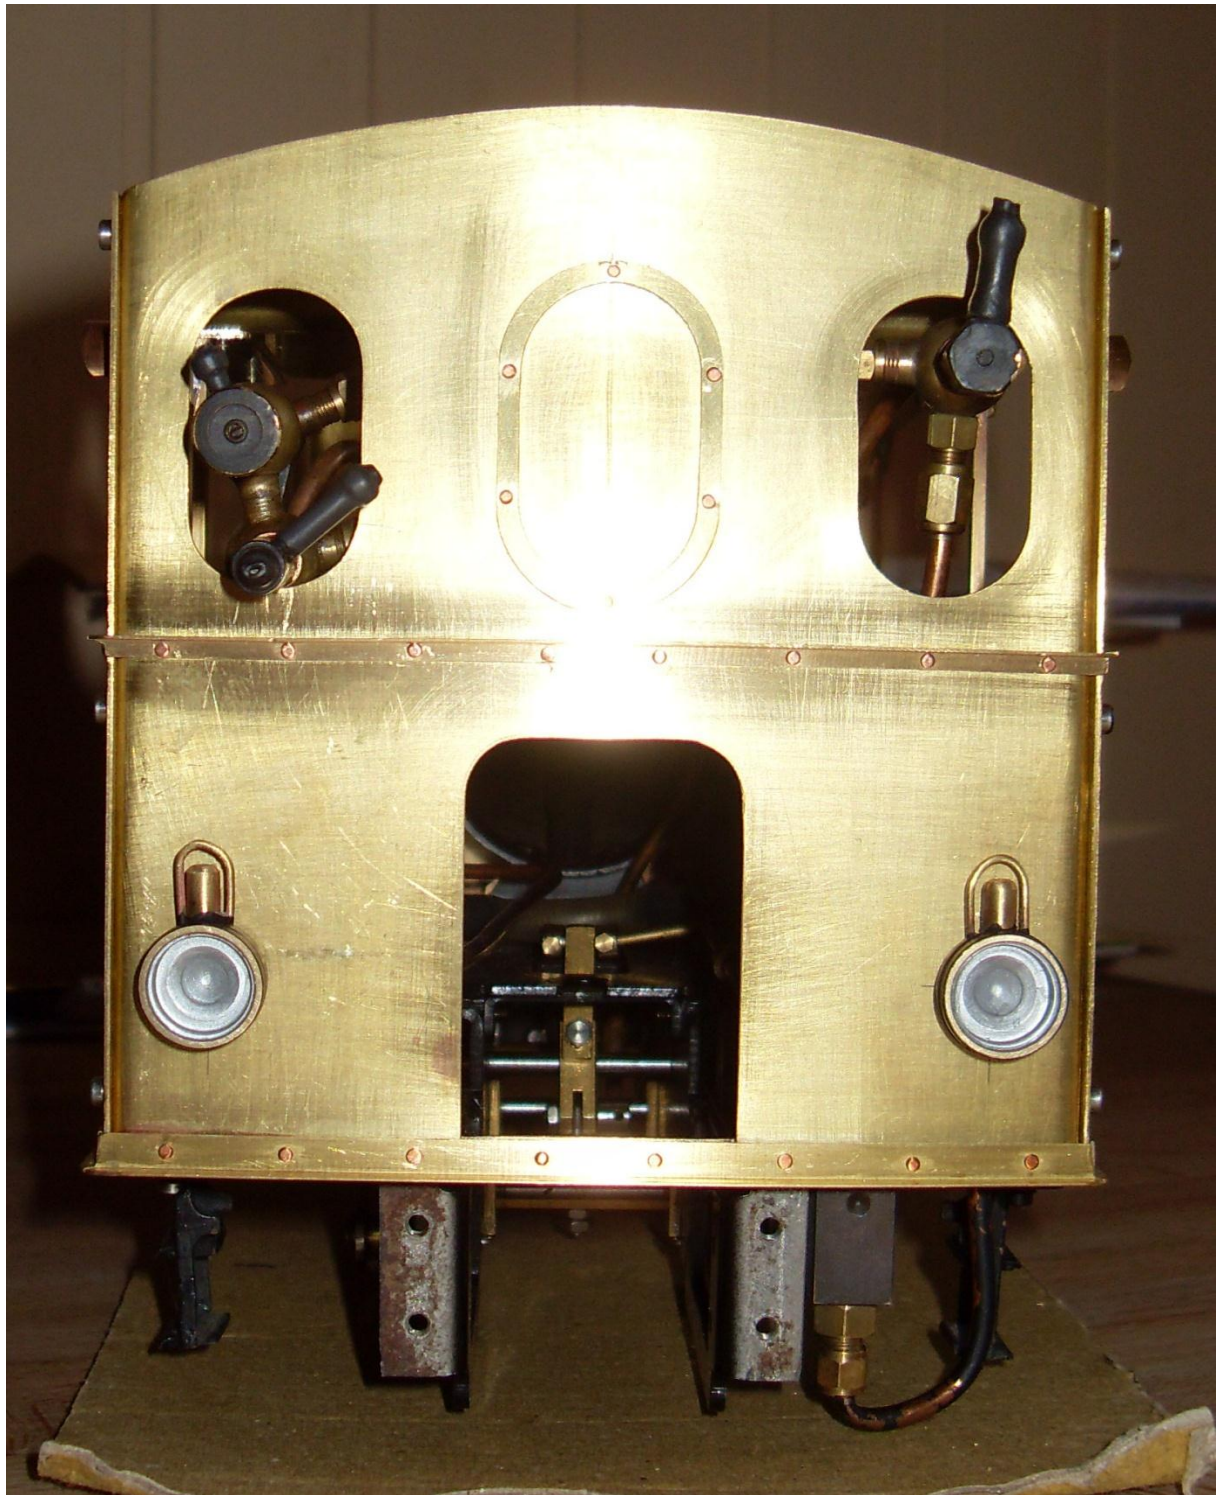

Het begint ergens op te lijken

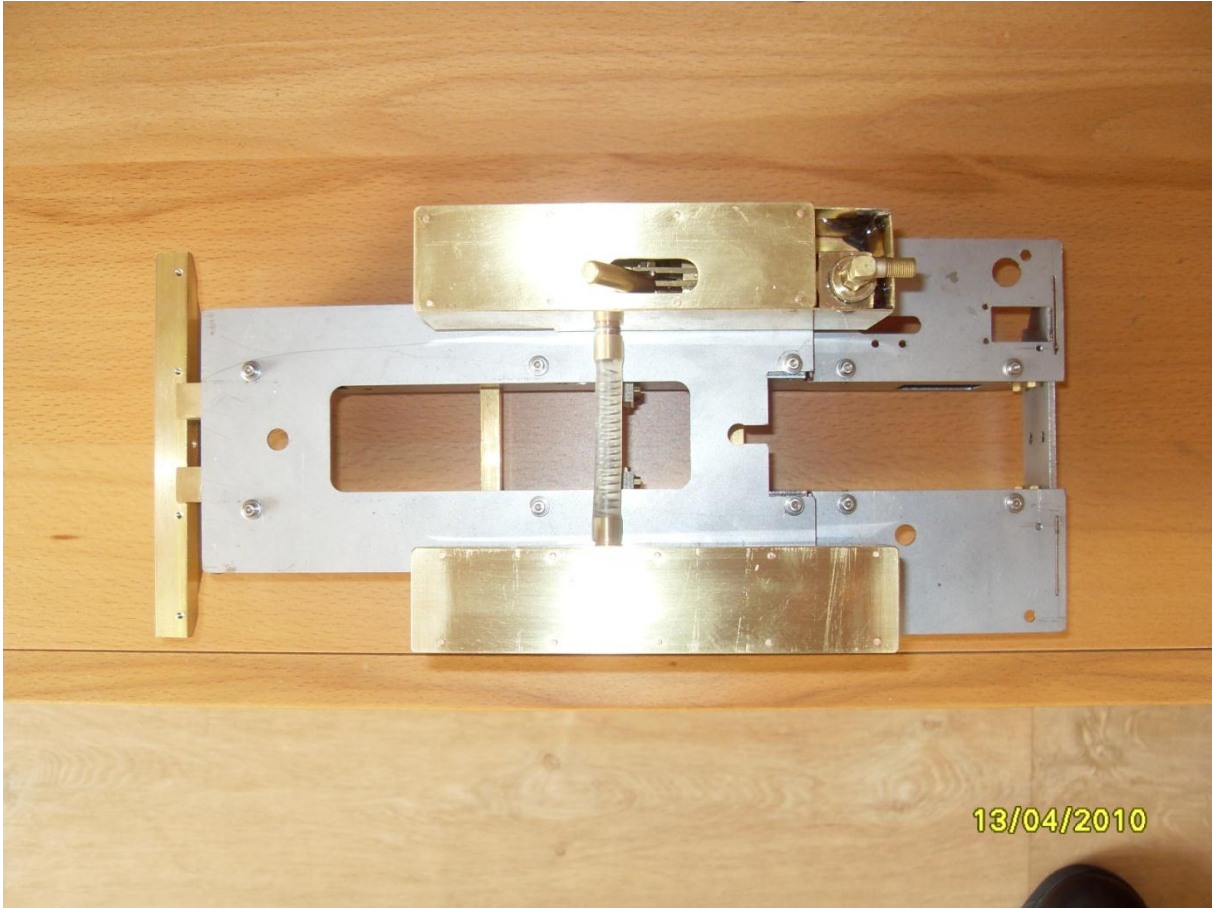

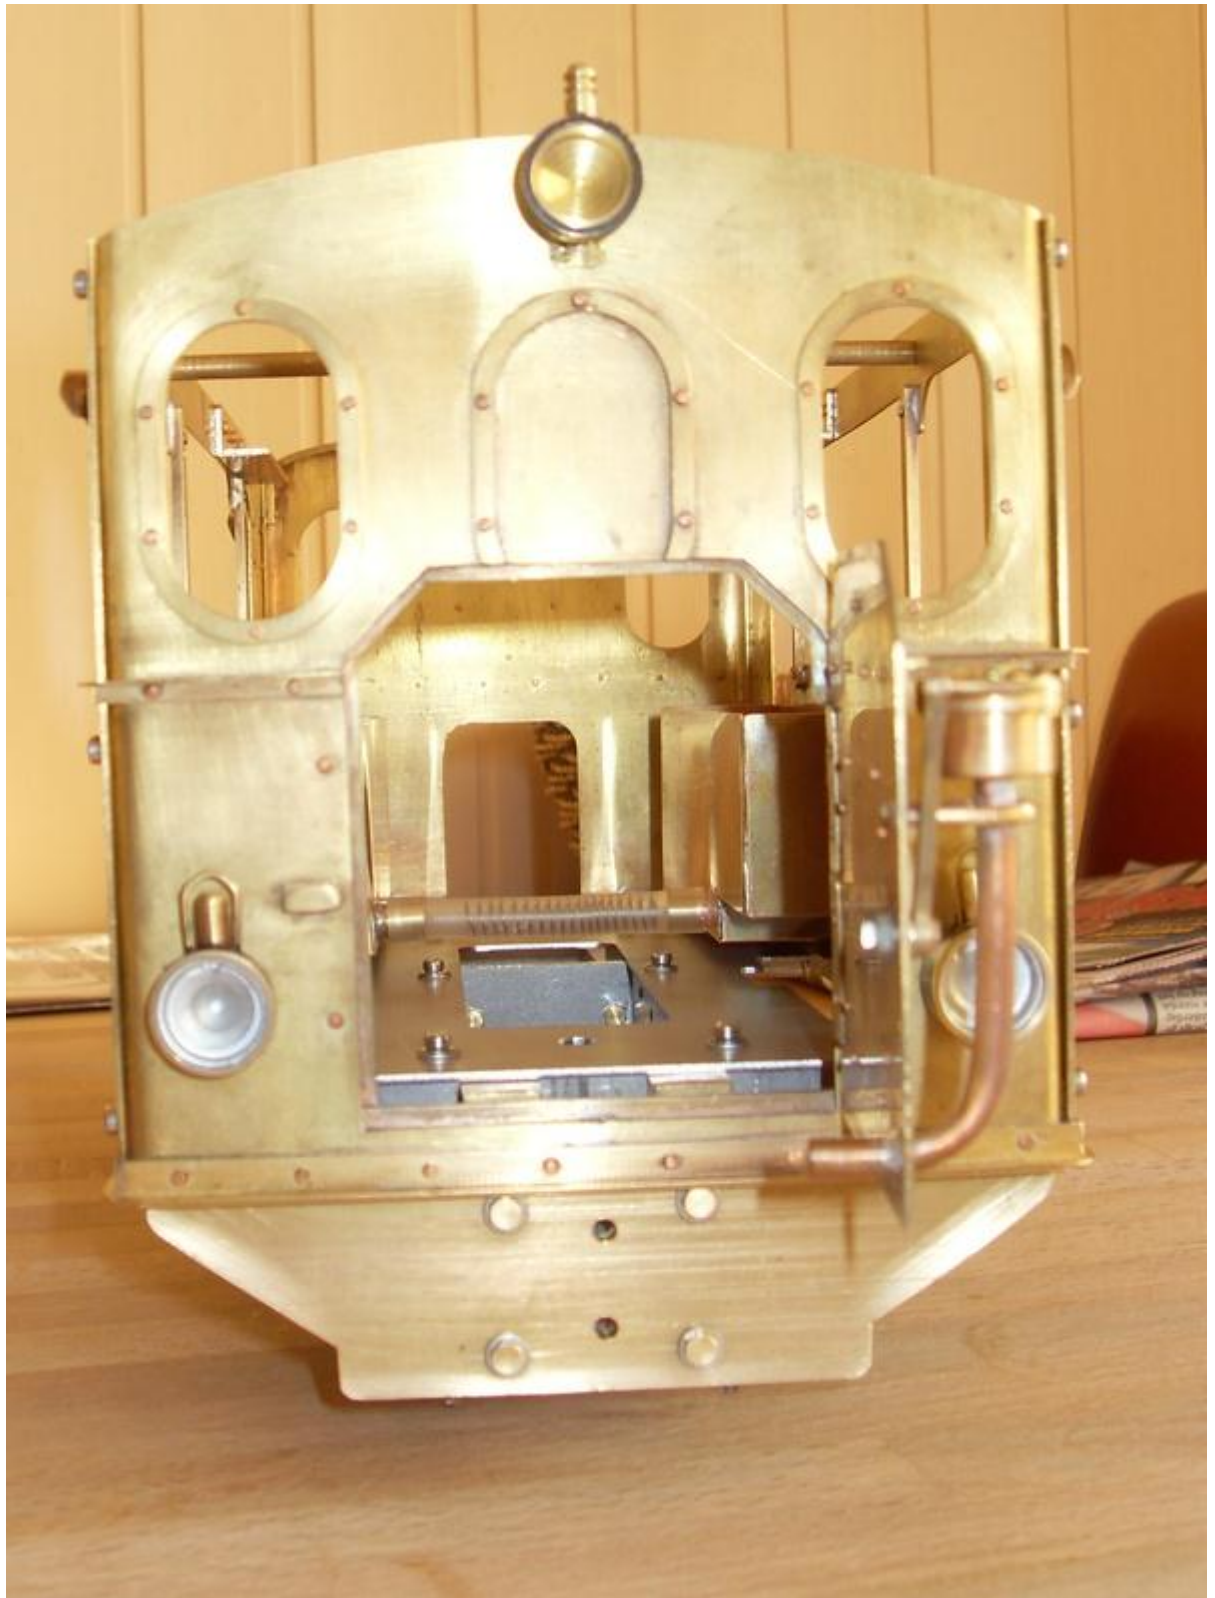

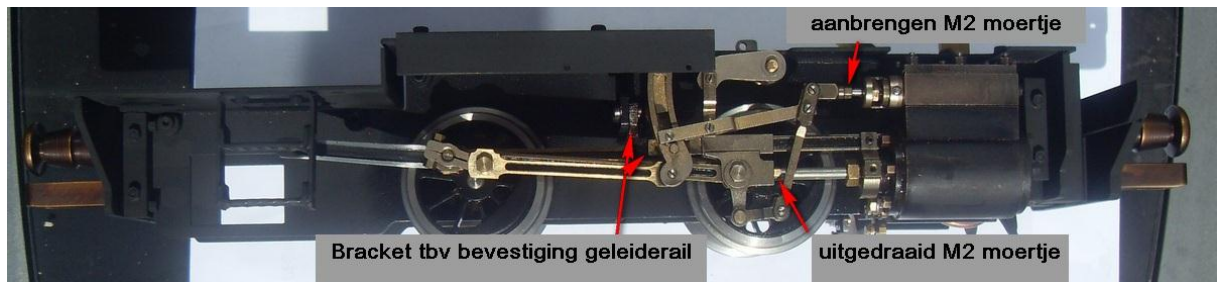

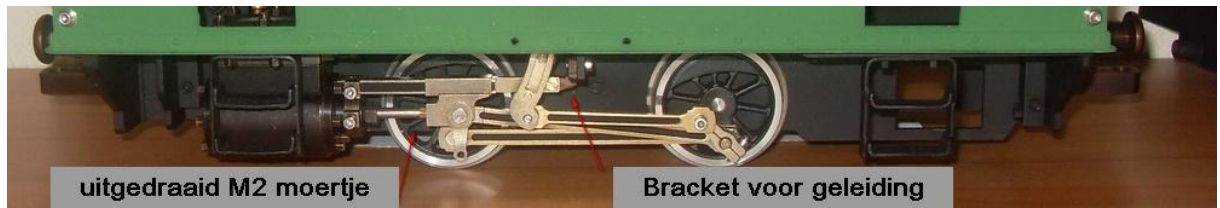

Het Casper 2 frame

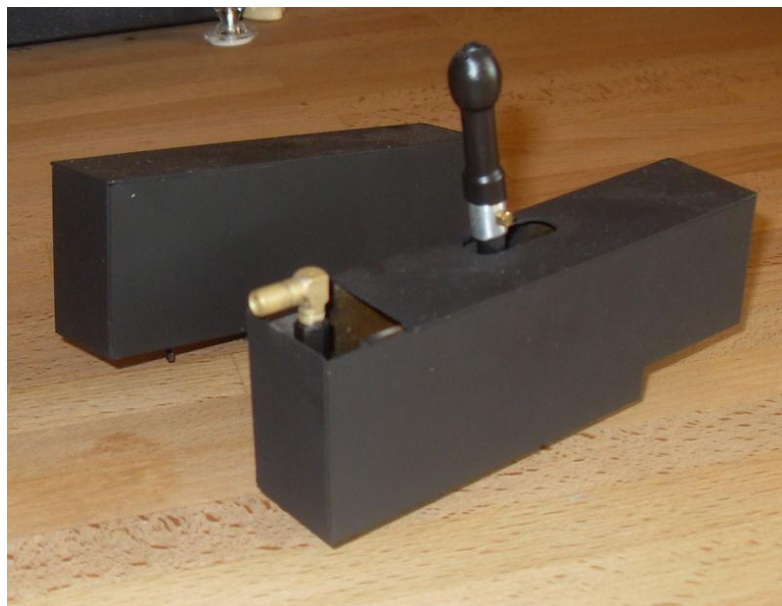

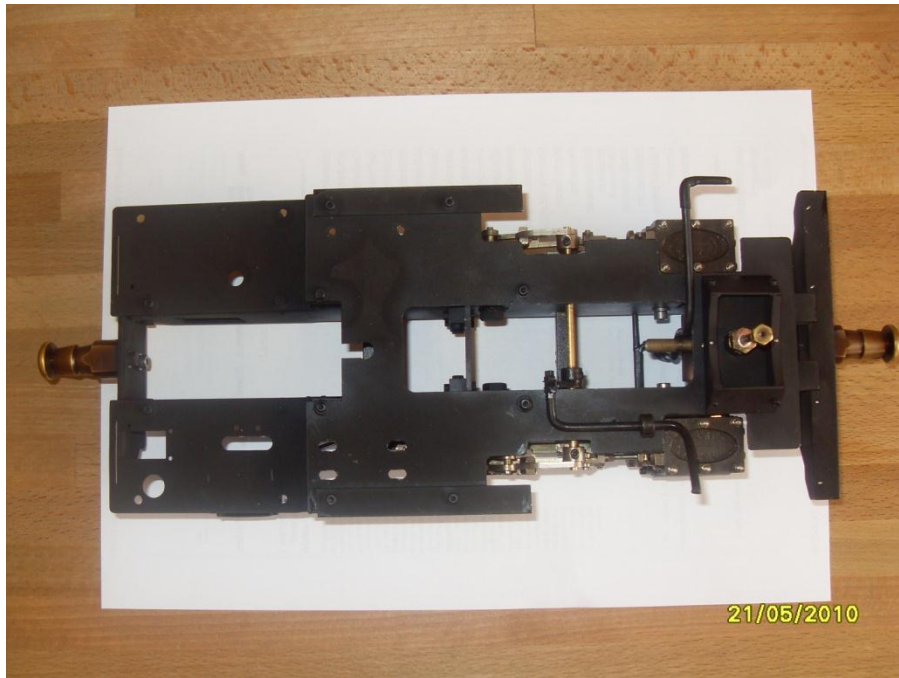

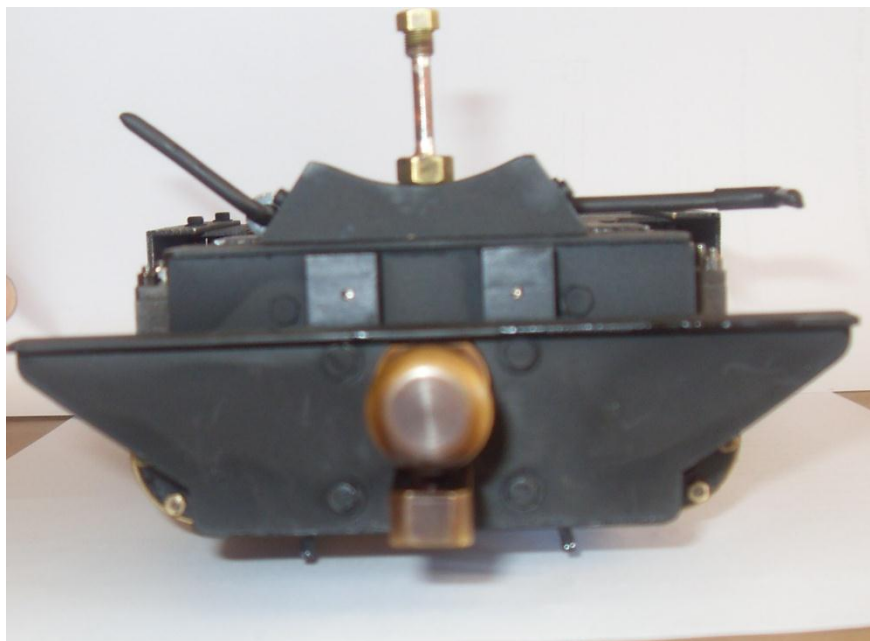

Bracket t.b.v. geleiderail

Waterbakken nu gedeeltelijk dicht, en aansluiting middels tussenstuk iets hoger.

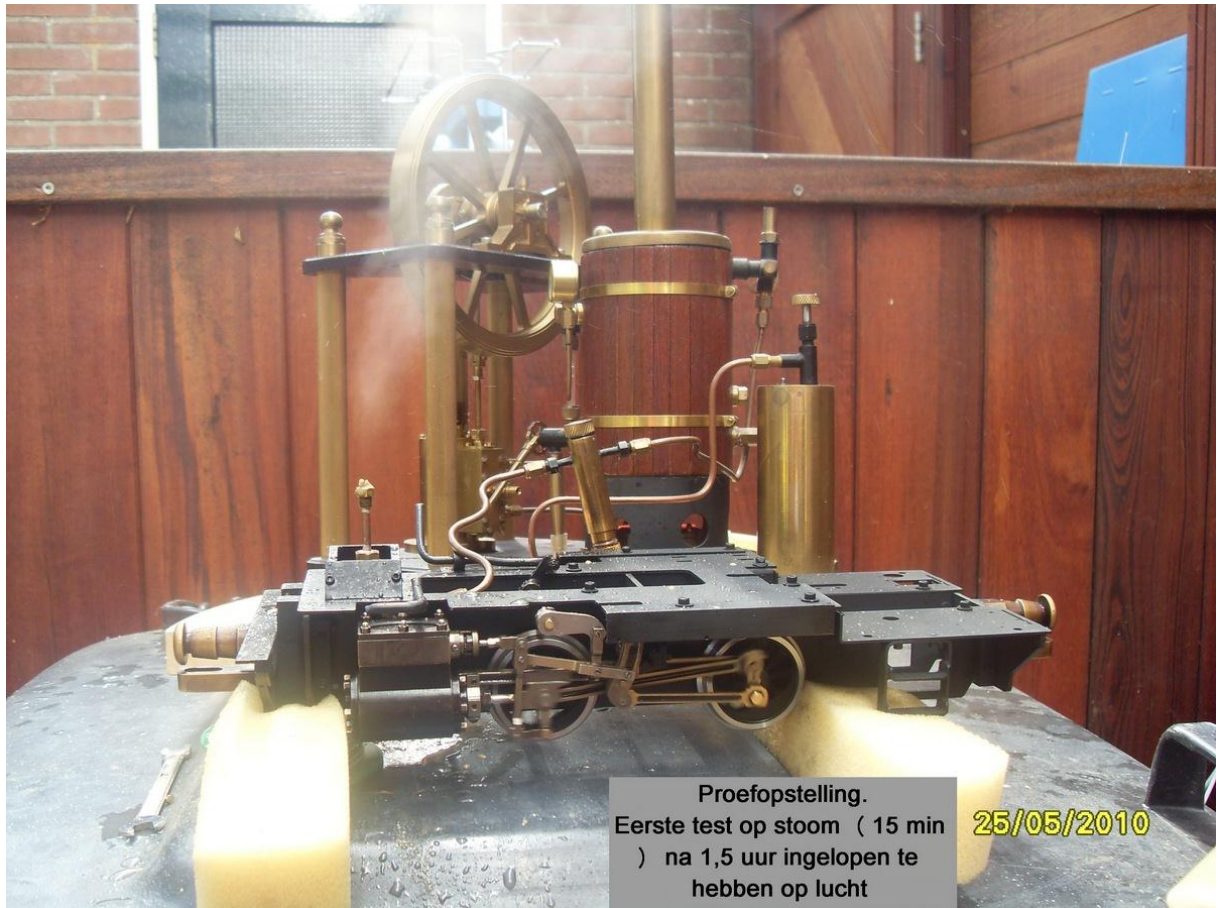

Bediening ontwatering (links) en rijrichting Heusinger (rechts)

Ketelsteun, buffer en koppelhaak.

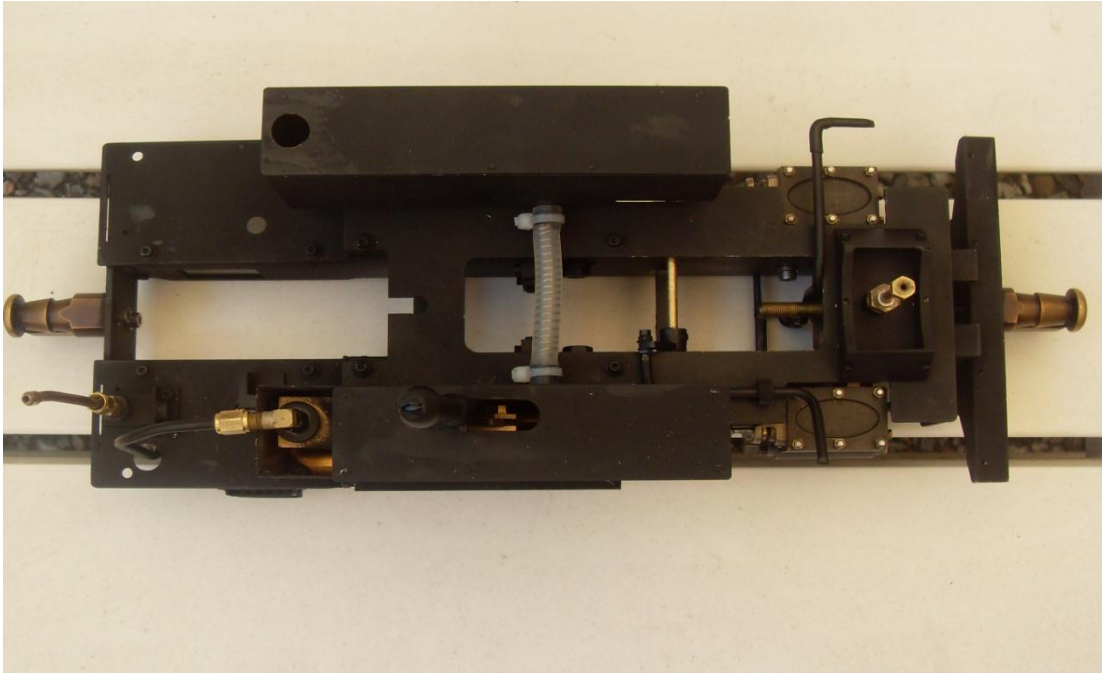

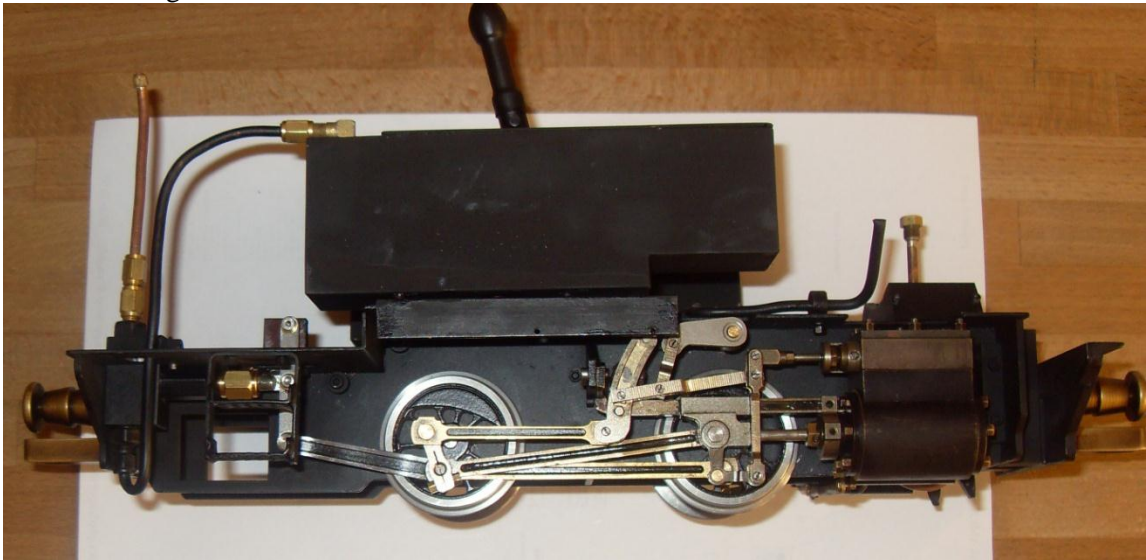

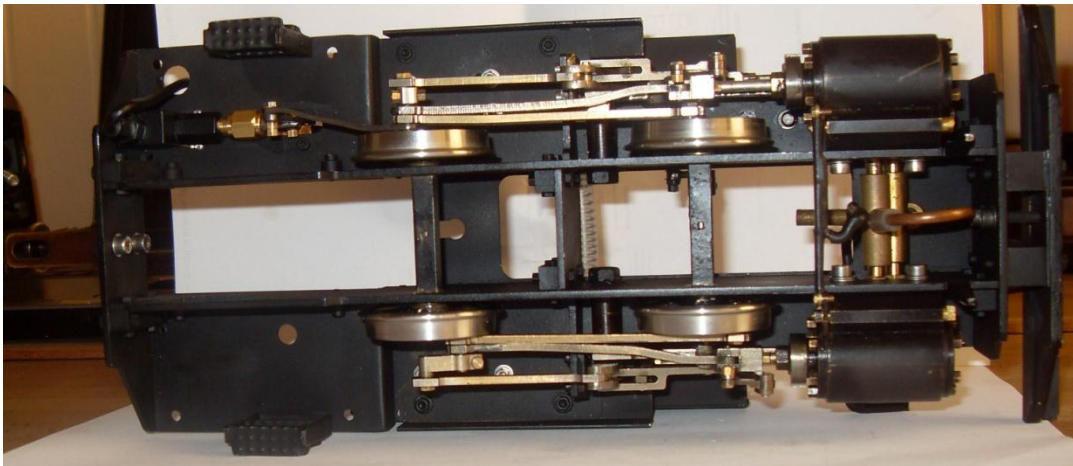

Waterbakken gemonteerd

Mechanische voedingspomp

2,4 GHz ontvanger met een accu pakketje
